

THE DUX 1001

THE DEFINITION OF THE DUX SLEEP SYSTEM, PURE AND SIMPLE

DUX 1001's dynamic two-layer base is the perfect introduction to the legendary DUX Comfort and support, and to a better nights sleep.

EXPERIENCE THE DUX DIFFERENCE

>> Swedish Steel Springs

At the heart of the DUX 1001 are Swedish steel springs — nearly 2 times as many as an ordinary bed. More springs provide better contouring for your body, reducing pressure points which can help improve circulation.

>> Extra Support

At DUX we offer you four top pads to choose from as an integral part of your DUX 1001. These include the deeply tufted Xstandard, Xsupport and Duxense top pads, as well as the revolutionary Pascal de Luxe top pad.

DIMENSIONS AND SPECIFICATIONS
